

Habibullah Noori

Highly motivated and skilled Full Stack Developer and Designer with over 4 years of freelancing experience. Proficient in creating seamless user interfaces (UI) and exceptional user experiences (UX). Expertise in both front-end and back-end development, with a passion for solving complex problems and creating innovative solutions. Additionally, I hold certificates and am currently pursuing a computer science degree. However, it's worth noting that I acquired most of my programming and design skills through self-teaching.

Education

I am currently pursuing a computer science degree at Rana University, currently in my second semester, with a focus on software engineering.

Skills

- HTML
- CSS
- JavaScript
- ThreeJS (Framework)
- Django
- Spring Boot
- Python
- Java
- C++
- MySQL
- PostgreSQL

Projects

Much of my work experience has been gained through freelancing with clients from various parts of the world.

- SickSeries 9 - 2022

I undertook a comprehensive website redesign, starting from scratch, for them. They were initially using a basic Shopify template, and I was responsible for both the design and development of the entire website.

- Why - Streetwear brand 5 - 2022

I completely overhauled their website, which originally relied on a basic Shopify template. This project involved the full spectrum of responsibilities, encompassing both the design and development of the entire website.

- Inkkas

1 - 2023

I initiated a thorough website transformation, beginning with a foundational redesign. Their initial setup relied on a basic Shopify template, and I took on the dual role of designing and developing the entire website.

- Automated a special Iphone's diagnostic process

9 - 2022

The client required an application to automate a unique phone diagnostic process they were doing manually for their imported devices (iPhones). The primary challenge was efficiently gathering data from iPhones upon connection. The entire project proved to be an exciting endeavor.

Over the course of my four years of experience, I have been engaged in numerous projects, carefully selecting and sharing only a fraction of the remarkable and confidential endeavors I've contributed to.

Certifications

- Certified JavaScript developer from - The Right Hands Community

1 - 2021

- Certified Java developer from - The Right Hands Community

3 - 2021

Personal Projects

- Personal Portfolio

9 - 2023

I revamped my personal website to provide prospective clients with streamlined access to my portfolio and a deeper insight into my background and capabilities.
